

Sew Much Comfort

Sew Much Comfort is a nationally recognized non-profit which provides adaptive clothing to support the unique needs of our wounded service members from all branches of the military service and National Guard. We also support many previously injured service members as their needs change and are still in the recovery process. These injuries require fixator prosthetics and casts that are too bulky to fit under ordinary clothing and underwear. Without adaptive clothing the only option for them is a hospital gown. Sew Much Comfort is the *only* organization providing adaptive clothing *at no cost* to our wounded service members.

All our adaptive clothing was designed with input from the wounded and medical personnel. Our wardrobe options continue to evolve as we strive to meet the needs of our injured service members.

Our clothing gives medical personnel ready access to their injuries utilizing the adaptive openings in our clothing. The openings permit easy access for medical exams, physical and occupational therapy sessions. Our clothing allows injured service members to easily dress themselves and our clothing appears as normal civilian attire.

We have produced over 75,000 items of adaptive clothing and comfort accessories since we began. We ship to medical units, hospital wards, clinics and medical facilities in the United States and all over the world. Our new focus is to have a presence in every military facility while also providing adaptive clothing after they have recovered sufficiently to return home.

HOW YOU CAN HELP

Your financial donations to Sew Much Comfort are tax deductible.

Sew Much Comfort is a non-profit 501 (c)3 organization 75-3178122.

Sew Much Comforts ability to provide adaptive clothing at *no cost* to wounded service members is directly tied to the support we receive from

individuals and organizations who believe in our mission. Please help us continue to provide adaptive clothing at *no cost* to our wounded service members.

Through your generosity our service members can be affected in a positive, supportive, encouraging and beneficial way.
